

**BACKED BY BEARD.
BUILT FOR TURF.**

Light the Fuse

Overview:

Fireworks lights the fuse on turf with explosive response. It delivers a true pound of nitrogen with balanced potassium support for turf health. Every pound supplies nutrient — no filler, just controlled performance with purpose in every prill. Using minimal materials and providing maximum nutrient, Fireworks stays clean in the spreader with low dust.

Key Features:

- 50% Slow-Release Nitrogen for steady, sustained energy
- Balanced potassium for overall plant health and strength
- Quick response from Nitrate and Ammoniacal Nitrogen
- "3 Priller, No Filler" formulation — every granule built for performance

Use it when: Turf needs a visual pop, rapid recovery, and consistent, lasting performance.

Explosive color. Fast recovery.

Guaranteed Analysis

• Total Nitrogen (N)*	29%
• Urea Nitrogen*	14.5%
• Ammoniacal Nitrogen	10.875%
• Nitrate Nitrogen	3.625%
• Available Phosphate (P2O5)	0.0%
• Soluble Potash (K2O)	7.0%
• Sulfur (S)	8.0%

***14.5% Slowly available Nitrogen from Polymer Coated Urea**

**DERIVED FROM: Polymer Coated Urea, Ammonium Sulfate,
Ammonium Chloride, Ammonium Nitrate and Potassium Nitrate**
